

GBIS Offers Second Professional Development Workshop of 2008

Georgia Biomedical Instrumentation Society is proudly offering a series of one-day educational courses, presented by industry experts and hosted by facilities across the state. Our first workshop, Anesthesia Troubleshooting presented by CE-Tech, was a tremendous success. Thanks to the efforts of Horace Hunter, Allan Williams, and Jason Ferguson, the second of these workshops will be held in June.

PRESENTS

Zoll M Series Defibrillators

Place: South Georgia Medical Center, Valdosta, Ga.
